Protocol Overview

This protocol combines supplements that incorporate the importance of healthy kidney function if you want reproductive and sexual healthfulness, herbs that balance and soothe the female glandular system, a single herb that will temper and alleviate the discomfort of menopause, and as well as providing adequate nutritional support.

Kidney Tonic – Traditional Chinese and Western herbs combined to support the kidneys. This formula is designed to strengthen and balance the kidney energy – it is not a diuretic. Good sexual health and energy depends on, and is directly related to the health of your kidneys.

Tone Her – Our formula contains herbs of both Eastern and Western origin used by herbalists for a variety of female glandular conditions. An excellent herbal combination for balancing the female endocrine system, resulting in a greater sense of well-being.

Dong Quai - is known as the female Ginseng in China. Regarded by Chinese herbalists as an excellent glandular and female tonic. Dong Quai increases the effects of ovarian and testicular hormones. Used in the treatment of female problems such as hot flashes and other menopausal symptoms, premenstrual syndrome, and vaginal dryness. Depression, inflammation and insomnia resulting from a hormonal imbalance may be addressed with this herb.
