### **Protocol Overview**

Multiple sclerosis is an autoimmune disease that affects the brain and spinal cord (central nervous system). MS is caused by damage to the myelin sheath, the protective covering that surrounds nerve cells. When this nerve covering is damaged, nerve impulses are slowed down or stopped. The nerve damage is caused by inflammation. Inflammation occurs when the body's own immune cells attack the nervous system. Repeated episodes of inflammation can occur along any area of the brain, optic nerve, and spinal cord.

This wellness protocol combines essential vitamins and minerals to support brain functioning and all over cellular health, as well as herbal combinations to support mental clarity, the immune system, and aid in the soothing of inflamed bodily areas.

- ✓ The herbs in our formula are properly combined for maximum benefit and relief.
- ✓ InflamEX balances the engagement of the immune system, preventing an autoimmune response.
- ✓ Some herbs in our formula specifically combat the proliferation of the various forms of inflammation.
- ✓ Fulvic trace minerals in our formula provide nutrients to the areas in the body where they are most needed. These trace minerals are rich in fulvic acids, the world's most powerful chelators. No other inflammation formula contains Tracite from our privately owned fulvic acid mine.
- ✓ Enzymes speed up the delivery of nutrients and herbal constituents within the body.

**Brilliance** – Supplies the brain with important trace elements and oxygen-rich nutrients essential for optimum cellular function. It also helps supply the nervous system with a calming energy. The herbs found in Brilliance have a neutral energy well balanced in its Yin & Yang properties.
